

Where to get help: Community resources for people affected by drought and bushfire

Bushfire and drought have had a big impact on our emotional wellbeing and mental health. This resource has been put together to provide information and support for yourself, your family or someone you are concerned about. There are many ways you can access help including over the phone, internet or face to face. This resource provides a range of ideas for crisis counselling and support and mental health treatment programs that can be accessed by phone, as apps or online. These services are not just for people with a mental health diagnoses but are designed for anyone who is experiencing problems. Most of these services and resources are free and can be accessed anytime.
